

Interaction Processes in the Classroom

6th Bildungswissenschaftlicher Tag
November 30th, 2018
9.30 - 20.00
Pädagogische Hochschule Thurgau (PHTG)

Interaction Processes in the Classroom

The classroom is a place full of interactions – both among students and between students and teachers. The “Bildungswissenschaftlicher Tag” will focus specifically on these social interaction processes with respect to not only critical underlying dimensions (e.g., agency, communion, emotions) but also empirical assessment and how such processes can be optimized in classroom settings. Talks and workshops will provide insight into the state of the art of research on this topic and outline practical implications derived from this research.
